DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-4, drawn to a polishing apparatus comprising a processing section, a receiving chamber, and a cleaning chamber disposed adjacent to said receiving chamber.

Group II, claim(s) 5-7 and 13, drawn to a method and apparatus for polishing a wafer comprising a processing section, a receiving section, a position mechanism for aligning a reference position of a wafer.

Group III, claim(s) 8-12, drawn to a polishing apparatus comprising a processing section, a receiving section, a clean space, and a clean air unit in said clean space.

2. The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: a clean air unit nor a position mechanism.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
